Award Description*		
<p>The State of Delaware intends to use the Stimulus funding in this award to help implement Section 124 of the Energy Policy Act of 2005 (EPAcT) 2005) by reestablishing a rebate program, through the state's new Sustainable Energy Utility, for residential ENERGY STAR appliance products (those that represent improvements in efficiency compared to the majority of products in the market). The Delaware Energy Office will ensure that the Stimulus funds are not used to support less than 50% of the administrative costs to carry out the rebate program. Appliance Rebate Program Objectives are: - Save energy by encouraging appliance replacement through consumer rebates. - Make rebates available to consumers. - Enhance existing rebate programs by leveraging ENERGY STAR national partner relationships and local program infrastructure. - Keep administrative costs low while adhering to monitoring and evaluation requirements. - Promote state and national tracking and accountability. - Use existing ENERGY STAR consumer education and outreach materials.</p>
